## CAREER OBJECTIVE

I have 5.4 years of experience in software development in the areas of domain like 'casino games', 'Shipments', 'Restaurant', 'insurance' and 'Ecommerce's' type project development, Seeking a challenging career in the area of software development where I can create value for my company by utilizing my technical proficiencies and growing along with the companies.

## PROFILE

- Experience in Data Structure with java language, Algorithms and problem solving questions .
- Experience in developing various open source frameworks and tools such as **Spring , Spring boot , Microservice , Hibernate , Restful Services, JPA , thymeleaf, JMS ,Apache Kafka , Docker , MongoDB , Log4J and MAVEN , Svn , Git , Unit Testing(Junit , Mockito )**.
- Experience on working with **Angular 6** using it in current project .
- Experience in developing micro services with various Netflix oss component with API Gateway pattern.
- Experience in implementing various Object-Oriented Design Patterns from creational and other design pattern.
- Experience on **Java Collection Framework** for representing and manipulating collections, enabling collections to be manipulated independently of implementation details.
- Ability to work under pressure and manage (Multiple) project tasks with changing priorities and tight deadlines and can work either independently or as a part of a team.

## PROFESSIONAL EXPERIENCE

- Currently working as a 'Senior Software Engineer' in product based company '**Bureau Veritas India**' Noida from 2 years in project 'Online Inspection & testing' Ecommerce type project.
- Worked as a Software Developer in '**Chetu India pvt ltd**' Noida .  
**Project** : Casino games, Shipments , Restaurant ( **Asurewin Games**)
- Worked as a Software Developer in '**Infogain India pvt ltd**' Noida .  
**Project** : Vehicle insurance product of US Mitchell .

## EDUCATION

| Degree | Year | School/College/University         | Percentage |
|--------|------|-----------------------------------|------------|
| M.C.A  | 2016 | HBTI Kanpur Uttar Pradesh         | 62         |
| B.S.C. | 2013 | VSSD College Kanpur Uttar Pradesh | 52         |

## TECHNICAL SKILLS

|                        |  |
|------------------------|--|
| Area of interest       | Data Structure and Algorithms  |
| Programing Language    | Java   |
| Frameworks / Api       | Spring , Spring boot , Microservice , Hibernate , Restful Services, JPA , thymeleaf, JMS ,Apache Kafka , Docker , MongoDB , Angular 6 , Log4J and Unit Testing(Junit , Mockito ) , Xml , Jax-p , Jax-b , Restfull services ,Json . |
| Spring security        | Simple Form Login , Jwt , OAuth2.0   |
| Spring cloud           | Eureka client , Eureka server , Hystrix, Zuul Gateway, Hystrix Dashboard, Ribbon , Feign , Spring cloud config server ,Slueth along with zipkin server   |
| Design Patterns        | DAO, Business Delegate,Factory Pattern , Abstract Factory Pattern , Singleton Pattern ,Pattern , Flyweight Pattern , Strategy Pattern , Template Pattern .   |
| Query Language         | SQL , NoSQL (MongoDB)  |
| Databases              | MS Sql server developer edition , oracle 12c , MongoDB Atlas   |
| Web/Application Server | Apache Tomcat, JBOSS ,   |
| Tools                  | SQL Developer, Log4J. MAVEN , Svn , Git , Jenkin , jeera   |

## PROFESSIONAL PROJECTS

- **Bureau Veritas India.**

|              |   |
|--------------|---|
| Title        | E-Commerce (Online Consumer Services)   |
| Environment  | Windows   |
| Technologies | Spring boot micro services architecture with API gateway pattern , spring cloud services, JPA, thyme leaf, JMS , Apache Kafka ,Angular 6, Docker , MongoDB , Log4J and Unit Testing(Junit , Mockito ) , Json , Git. |
| Databases    | MongoDB (MongoDB Atlas) , Oracle 12c  |
| Role         | Developer   |
| Team Size    | 8   |

1. **Project Description** : It's E-Commerce type project where any customer can purchase the service for any types of consumer product's testing, inspection and certification .
2. **Roles and Responsibilities** : In this project I am working as a developer and responsible in write code as per given requirement from page design using html and Angular 6 in front-end , for developing backend services we are developing spring boot microservices using cloud services like Eureka server

so I have to register our service with eureka client and configuring service id for routing in zuul gateway service , configuring cloud config service url in bootstrap.yml file , zipkin server url , creating feign client for internal communication with microservices , and writing fallback method using Hystrix command and to communicate with database using MongoTemplate and MongoRepository after implementing service writing test case using mockito and then building image using docker and pushing it to docker hub for deployment in testing environments . and also written docker-compose.yml files for deploying all micro services together in single host machine .

- **Infogain India Pvt Ltd**

|              |  |
|--------------|--|
| Project      | Insurance  |
| Environment  | Windows  |
| Technologies | My Eclipse , Spring (microservices) ,JPA , Maven ,TFS , Jenkins , and Log4j , JBoss. |
| Databases    | Oracle .   |
| Role         | Developer  |
| Team Size    | 3  |
|              |  |

- 1 Project Description :** This is the Insurance project to claim insurance Estimates has been created using multiple estimate tools so after sending estimates one service receive estimates xml file data from microservice and this xml file has been calculated and generates two xml files using other service like Mie\_xml and BMS\_XML and again calculation and filter are done using xslt .
- 2 Roles and Responsibilities:** My role analysis on reporting data that comes from different flow fixing issue on business logic and development .

- **Chetu India Pvt Ltd**

|              |  |
|--------------|--|
| Project      | Casino Games   |
| Environment  | Windows  |
| Technologies | My Eclipse , apache Tomcat, Spring, Struts 2 , Hibernate ,Rest ,HTML ,CSS ,JMS ,JSON , Maven SVN , and Log4j . |
| Databases    | MS Sql server 2012 developer Edition .   |
| Role         | Developer  |
| Team Size    | 4  |

- 1. Project Description :** This Project has two application portal first game portal and other one admin portal .game portal has list of game user can open any one of them game to play here two type of game are there play for fun means user got 100\$ credits in his/her account but for any spin none transaction will

happen .for other type user have to register with valid bank account to play the game have to make bet of min .01 sent and max 10\$ for spin and user can make some dollar as winning amount .

2. **Roles and Responsibilities:** I have worked on UI to backend of Game like adding icons on games screen managing backend( managing event by using jquery under java script function ) writing code for handling request made at game UI side (request like Bet , spin , win , loss , jackpot , bonus game ,free spin etc) into game server using(struts 2.x , spring , Hibernate , rest) .Worked on games admin portal replacing all properties file using into games portal with database and enabling modification by admin UI managing issue report . Configuring SSIS jobs with visual studio 2012 with respective project and scheduling jobs with ms sql server Agent and testing jobs with admin portal of game .

- **Chetu India Pvt Ltd**

|              |  |
|--------------|--|
| Project      | Shipments and Restaurant   |
| Environment  | Windows  |
| Technologies | My Eclipse , JBoss Server, Spring boot ,Hibernate , JPA ,HTML ,CSS ,JSON , Maven SVN , and Log4j . |
| Databases    | Oracle 12c.  |
| Role         | Developer  |
| Team Size    | 5  |

- 1 **Project Description :**This application provides transportation services and provide vehicles on rent like truck , tractor , auto ..etc as per customer requirements .
- 2 **Roles and Responsibilities:** because of we are only developer on this project so we have started this project by setup environments like java maven LDAP creating user oracle 12c and oracle sql developer configuration spring security with ldap server and created front side Angular project .

## PERSONAL STRENGTHS

- Self Motivated, Flexibility and Adaptability, Quick learner, Stress tolerance, Decision making skills, Creativity, Leadership, Responsible.

## DECLARATION

- I hareby declare that it's all about me is true as per my knowledge
